letterhead – 1st page

there is prepared graphic with the side head to use as a letterhead (format A4). Side deviations of the frame for the text input will be defined

display of the letterhead is zoomed to 80 %

letterhead – 2nd and subsequent pages

all pages of the letterhead are identical,
as well as the texts in the identical frames
on all pages

letterhead – space for additional logotypes

space for additional logotypes is intended in the upper right corner of the letterhead. When inserting the logotype on the letterhead (image) it is required to put "after the text". Like this we maintain the basic layout of the letterhead
