medvedu
prijazno

LIFE13 NAT/SI/000550

S podpora finančnega mehanizma
Evropske unije LIFE.

Bears are generally shy and tend to avoid humans

Medvedi so praviloma plašni in se izogibajo ljudem

They need large and connected habitats to survive

Za preživetje potrebujejo velike in povezane habitate

They are omnivores with mainly plant based diet

So vsejedi, a jedo pretežno hrano rastlinskega izvora

Food often attracts them to settlements,
where they can cause problems to humans

Hrana jih pogosto privabi v naselja, kjer lahko povzročijo
težave človeku

With appropriate measures we can improve
coexistence with bears

Z ustreznimi ukrepi lahko izboljšamo sobivanje
z medvedi

LIFE Evropske unije.

Bears are generally shy and tend to avoid humans

Medvjedi su uglavnom plahi i izbjegavaju ljude

They need large and connected habitats to survive

Potrebno im je veliko i povezano stanište kako bi preživjeli

They are omnivores with mainly plant based diet

Medvjedi su svežderi koji se hrane uglavnom hranom biljnoga porijekla

Food often attracts them to settlements, where they can cause problems to humans

Hrana privlači medvjede k ljudskim naseljima gdje mogu načiniti štetu

With appropriate measures we can improve coexistence with bears

Pomoću odgovarajućih mjera možemo poboljšati suživot s medvjedima

bear
friendly

LIFE13 NAT/SI/000550

With the contribution of the LIFE financial
instrument of the European Union

Bears are generally shy and tend to avoid humans

Bären sind generell scheu und gehen Menschen aus dem Weg

They need large and connected habitats to survive

Sie brauchen großflächige, zusammenhängende Lebensräume um zu überleben

They are omnivores with mainly plant based diet

Sie sind Allesfresser die sich hauptsächlich von Pflanzen ernähren

Food often attracts them to settlements, where they can cause problems to humans

Futter kann sie in Siedlungen locken, wo es zu Konflikten mit Menschen kommen kann

With appropriate measures we can improve coexistence with bears

Mit entsprechenden Maßnahmen können wir das Zusammenleben mit Bären verbessern

Bears are generally shy and tend to avoid humans

They need large and connected habitats to survive

They are omnivores with mainly plant based diet

Food often attracts them to settlements,
where they can cause problems to humans

With appropriate measures we can improve
coexistence with bears

Gli orsi sono generalmente animali timidi ed evitano
gli incontri ravvicinati con l'uomo

Per sopravvivere hanno bisogno di habitat grandi e
collegati

Sono onnivori, ma si nutrono soprattutto di alimenti
di origine vegetale

Il cibo spesso li attira nei pressi dei centri abitati,
dove possono causare problemi al uomo

Con misure appropriate possiamo migliorare la nostra
convivenza con l'orso

Bears are generally shy and tend to avoid humans

Les ours sont généralement timides et ont tendance à éviter les humains

They need large and connected habitats to survive

Ils ont besoin de vastes espaces reliés entre eux pour survivre

They are omnivores with mainly plant based diet

Ils sont omnivores et mangent principalement des végétaux

Food often attracts them to settlements, where they can cause problems to humans

La nourriture les attire régulièrement vers les zones habitées, où ils peuvent causer des ennuis à la population

With appropriate measures we can improve coexistence with bears

Des mesures appropriées permettraient d'améliorer notre coexistence avec les ours
